

WHAT BANKING MEANS TO WOMEN

IT was the old idea that woman tend her home and not know anything of business or investing. Result was that through her inexperience she was often the easy victim when she had savings or was left an inheritance.

A woman should bank her savings for safety, and for her own peace and happiness.

For the security of her home and her children she should be acquainted with our bank. She'll find it of valuable aid not only in more than making ends meet, but in securing expert, confidential advice on financial matters.

Come in and get acquainted with us and our methods.
